

Capability Statement

Thinking Space designs and builds consoles for control rooms

Using the CORE Aluminum system, all consoles are completely custom made for each application and have the capability for future alterations. This gives a true lifetime solution; as equipment changes the consoles can be changed to suit.

Offering an award-winning free design service, clients can visualize their project before manufacture. With a 10 year warranty, all furniture is guaranteed to meet heavy demands of 24/7 working environments.

Key customers

- Procter & Gamble
